

We offer the latest technology – DIGITAL EYE EXAM !

Screening #1-OCT (OCULAR COHERENCE TOMOGRAPHY)

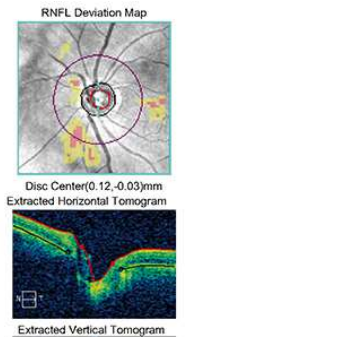

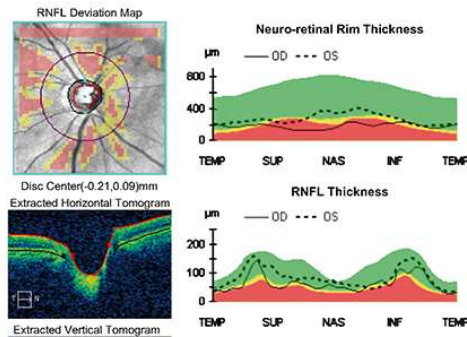

- It is like an ultrasound image of the eye.
- This can detect macular degeneration with high precision
- This can detect Glaucoma changes or Optic Nerve swelling VERY EARLY

NORMAL OCT
MACULA

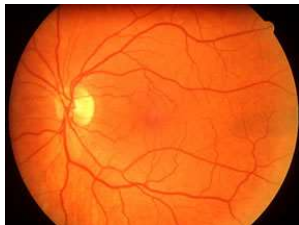

ABNORMAL OCT
MACULA SWELLING

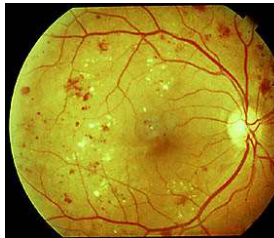

Screening #2 - DIGITAL PHOTOGRAPHY

- This can detect retinal Diabetes and blood leakages
- This can detect uncontrolled Hypertension and retinal freckles

DIGITAL PHOTO
NORMAL RETINA

DIGITAL PHOTO
ABNORMAL RETINA

I would like to have the DIGITAL EYE EXAM!

\$29 for one screening #1

\$48 for both screenings, #1 and #2 (\$10 off when doing both)

NO, I would like to do the Digital Eye Exam at another time.

Patient Sign X _____

(parent signature if minor)
